THE UNIVERSITY OF AZAD JAMMU & KASHMIR, MUZAFFARABAD

COURSE TITLE	I&CT
COURSE CODE	HU-1104
LAB TITLE	VIRTUAL COLLABORATION TOOLS
STUDENT NAME	HASEEB SHEIKH
STUDENT ROLL NUMBER	2024-SE-31
INSTRUCTOR NAME	ENGR. TAHIR ABBASI
SUBMISSION DATE	FEBRUARY 26, 2025

DEPARTMENT OF SOFTWARE ENGINEERING

I&CT

Lab 9

Learning Experience Summary

In this lab, I gained valuable skills in managing and organizing files using Google Drive. I learned how to create folders, upload different types of files, and organize them into subfolders for better structure. Additionally, I explored the sharing settings, enabling me to share folders with varying access levels efficiently. Using Trello, I discovered effective methods for organizing tasks, creating lists, and collaborating with team members in a visually appealing way. This hands-on experience has enhanced my proficiency in cloud-based file management and collaboration tools, making me feel more confident in managing both personal and professional tasks.

Acknowledgments

- I would like to thank my classmate Abdul Rehman for his collaboration and insights, which enriched my understanding of the tasks.

- A special mention to Engineer Tahir Abbasi for his innovative teaching approach and dedication to fostering a collaborative and dynamic learning environment.
